INCREASE IN TAXES.

Business Property to be Assessed at Ten Per Cent Advance.

Salt Lake City business men will be called upon to pay approximately a 10 per cent increase on the assessment of their property over the last year's figures, according to County Assesso: C. M. Brown. The raise is necessary, Mr. Brown states, in order to furnish revenue for carrying on the government and for the purpose of more nearly equalizing the tax burden between the farm and residence property and the business property. The latter, he chaims, has only paid on an assessment of 50 per cent of the real valuation. while the residence property has been assessed at about 75 per cent of its

Another feature of the assessment this year, he says, is the fact that the smelters closing down will throw con-siderable more burden on the owners of farms in the smelter district, as the value of the farms is considered to have increased with the discontinuance of the noxlous and destructive fumes from

It will take about two weeks longer It will take about two weeks longer to complete the assessment roils of the county, when they will be turned over to the county treasurer. They will next go to the board of equalization, composed of the county commissioners, when they will be raised or lowered according to the judgment of the board. The board will be in session duing the month of June.

OBJECT TO STRONG MEDICINES.

Many people object to taking the strong medicines usually prescribed by physicians for rheumatism. There is no need of internal treatment in any case of muscular or chronic rheumatism, and more than nine out of every ten cases of the disease are of one or the other of these varieties. When there is no fever and little (if any) swelling, you may know that it is only necessary to apply Chamberlain's Limiment freely to get quick relief. SUPREME COURT ON THE PAUL CASE

Attempt of Atty. S. P. Armstrong To Interject "Religious Influence" Sat Down Upon.

NO CAUSE FOR A NEW TRIAL.

But Few Verdicts Would be Permitted to Stand if Counsel's Unfound ed Contention Taken Seriously.

The attempt of Atty, S. P. Armstrong to overrule a decision of the district court by accusing a jury of having been actuated in their verdict by religious influence has fallen to the ground. The trial court sat upon Armstrong hard, and the supreme court, in a decision handed down yesterday, accentuated the rebuke, by upholding the district

the rebuke, by upholding the district court in every phase of the case.

The charge made by the attorney when asking for a new trial and later in an appeal to the higher tribunal was that at a conference previous to the trial of the cause in question, President Joseph F. Smith had spoken in a public meeting of the many cases arising wherein persons were imposing upon individuals, companies and corporations wherein persons were imposing upon individuals, companies and corporations in damage suits for alleged personal injuries. A few weeks later the case of Mrs. Louisa Paul against the Utah Light & Railway company came up for hearing in the district court, the verdict was in favor of the defendant, and lairtiff sourch to have the independent. plaintiff sought to have the judgment set aside on the ground that five of the jurors were Mormons and had been swayed in the matter by the ut-terances alluded to.

TRIED TO OUST MORMONS.

While the jury was being selected Atty Armstrong tried to oust every Mormon from the jury box, and would have done so had his peremptory challenges not been limited. His attitude was due to nothing but religious prejudice, as he afterwards admitted that at least one talisman excused was above reproach, except as to his religion. The jury as it finally stood contained the names of three non-Mormons, and the verdict was unanimous against the plaintiff. The allegations against President Joseph F. Smith were apparently an after thought on the part of plaintiff's attortorset.

In overruling the motion to set the judgment aside, Judge Lewis spoke very strongly, remarking that he hoped the time had not come when wrong in all its phases could not be denounced while and originally and origned and originally and originally and originally and originally publicly and privately without that fact being made the basis for the overturn-ing of matters judicial.

DECISION OF SUPREME COURT.

The decision of the supreme court wa written by Justice Frick, and was con-curred in by Justices McCarty and Straup. The trial court is upheld un-

Straip. The trial court says in part:

"The claims made in the affidavit are manifestly insufficient to warrant the granting of a new trial. If verdicts could be set aside on such statements, which in no way connect the jurorrs or any one of them with the alleged misconduct and things set forth, then but any one of them with the alleged misconduct, and things set forth, then but few if any verdicts would be permitted to stand. Courts in this regard follow closely the policy of the law, which in every possible way guards the purity of the jury box from undue influence and contamination. But in order to affect a misconduct so as to affect a regularly returned verdict it must be in some way made clearly apparent that the act or acts complained of reached the jurors or some of them."

The other errors complained of by ap-

The other errors complained of by appellants in the lower court are of routine court matters and are all set aside by the supreme court.

FAMOUS SUIT ENDS.

Jury Brings in Verdict Worthy of Solomon in Railroad Action.

Chicago, April 9 .- One of the longest and most intricate civil cases ever tried in Cook county—the Chicago & North-ewstern Railroad condemnation suit— ended in Judge Chitraus' court yestern-

ewstern Rallroad condemnation suit—ended in Judge Chitraus' court yesterday, with a verdict assessing \$765,000 damages against the railroad for the property on which the new station is to be built. The case began Sept. 3, and preparations for the battle extended over a year and a quarter.

The jury deliberated 17 days, and returned a verdict of 35 typewritten pages. The values on the property involved—the blocks between Madison and, Kinzie and Clinton and Canal streets—were placed by the jury at a figure 20 per cent higher than the highest value offered by the railroad company and 50 per cent lower than the price asked by the property owners. Officials of the road expressed themselves as satisfied with the verdict. The result of this suit is the first step only in the work of clearing the way for the new station. Some of the property owners hit by the decision are expected to appeal.

The property which must be vacated is known as the "Machinery district," and several big firms will find new locations. Old landmarks, such as the Gault House and the Barnes House, also will go.

WILL FILE ANSWER.

An answer will be filed shortly by the Royal Baking company in the suit brought against it by Frank Erath et al, denying under oath that the Royal bakery has every used or attempted to use the "Butter-nut" label. The answer to be filed will show that the "Crown" label was registered as a trade mark by the Royal company as long ago as April, 1900; and the answer will allege that the Royal label is so distinctive and well known to all consumers as to prevent any possibility of its being mistaken for its competitor's "Butter-nut" label.

IN BEESLEY ESTATE.

Clarissa A. Beesley and Wilford A. Beesley have filed a petition for letters of administration in the estate of Annie A. Beesley, deceased. Peti-tioners are the daughter and son of the deceased, and the estate in question is comprised in a piece property on Sixth West street.

OFFICIALS GO HOME.

Vice President Schlacks, Joel F. Vaile, general counsel, and Traffic Manager A. S. Hughes, all of the Ric Grande, have left the city on their way back to Denver. General Manager Ridgway will remain here a few days

"CRIP" ADOPTS OIL.

The Chicago, Rock Island & Pacific Railway is equipping its locomotives on the Kansas and Oklahoma divisions for oil fuel. It is intended that, commencing not later than May 1, oli-burning engines will be used exclusive-ly in all road and yard service in the territory between Herington, Kan., and Chicasha, Okla, and at the yards at Oklahoma City. This includes also the yards at Wichita, Caldwell and El

Reno. It is probable that the displac-ing of coal on these two divisions is preliminary to the introduction of oil fuel over the entire southwestern a portion of the Choctaw districts.

MRS. SARAH WATSON DIES.

Estimable Woman Succumbs After Hard Battle for Life.

Mrs. Sarah J. Williams Watson, wife of Hugh Watson, died this morning at 5:35 at her home, 424 west Fifth South street. Mrs. Watson was operated on for cancer Jan. 7, and while the operation seemed successful sine died from the effects of the disease. She bore her suffering with unusual faith and fortitude. CANAL MEN MEET.

S. H. Hays of Boise and F. Hill of Milner are registered at the Knutsford. They came down from Idaho to meet Mr. Kuhn of Pittsburg, president of the Northside Twin Falls Land & Water company, who is en route east from California. They report a new canal just opened which will irrigate 3,000 acres, and that in the past year 100,000 acres of land have been sold to new settlers. Mr. Hill says plans are now in achieve for the extension of irrigain embryo for the extension of irriga-tion interests from east to west, and from west to east, in southern Idaho, so that the entire stretch of country from the Wyoming to the Oregon state lines will be under the ditch. SUN SMILES IN DIXIE.

President Thomas Judd of the state board of horticulture arrived last evening from St. George, and is at the Wilson hotel. Mr. Judd reports the lucern a foot high in Dixie, and the al-monds all formed, with prospects for the best fruit crop that section of the state has seen for many a year—if only no late frosts come along. The H. H. Clark company has brought in a fine oil rig which is set up at Antelope Springs, just over the state line in Arizona, and is pumping out 20 to 30 barrels of oil a day, for fuel purposes. Mr. Clark is on the ground in person prepared to give the ground in person, prepared to give the possibilities of the situation the fullest exploitation. Mr. Judd also says that people down south are beginning to realize the opportunities for raising of seedless raisins, and many are pre-paring to raise raisin grapes.
